

## **BILLY COUNTED SO HIGH**

Billy counted so high  
That he forgot to come down  
He counted higher and higher  
Till his feet left the ground

First he started with 1  
Then he counted to 10  
Then right up to 100  
Then one thousand  
And then

Ten thousand (10,000)  
One million (1,000,000)  
Ten million (10,000,000)  
And more

One billion  
One trillion  
He could count high for sure

Then a zillion  
A zillion!  
A zillion's a lot

Then he counted to a googol  
But he still wouldn't stop

Billy loves counting  
That's safe to say  
I wonder what number  
Billy will count to today?
