

## BRAZILIAN

My parents always told not to be afraid of hard work. What's happening here is perfectly natural, Mr. Robertson. Just try and relax. My online course with the Boys of Brazil Beauty Academy has well prepared me for any accidental severing or lacerations that might occur. Besides, I'm only a First Level Manscaper. So, no pointy objects for me. It's just wax and rip at this point. So, you have nothing to worry about. And you having a boner won't change anything. It happens all the time. Just not to me. I practice on my stuffed animals and the cat. The stuffed animals look great. Yes. You have to be strapped down.
