

## SEXY

What is the expiry date for sexy? Am I required to turn it off at some arbitrary age? Like drinking, driving and voting or retirement? See, that never made sense to me. This whole random magical age thing. That at, say, twenty-one, “poof!” you are now competent enough to drink and rent naughty movies. It doesn’t make sense. The whole ‘age of majority’ thing. The majority of twenty-one year olds I know are morons. The majority of thirty-one year olds I know are morons. At what are we basing it on? Existence? Not being dead yet?
