

SUICIDE

Thought about slitting my wrists. You know, you go through it in your mind. Will it hurt? Should I or shouldn't I bleed over everything? Do I care? Should I have bandages standing by if I change my mind? If I might change my mind why am I trying to kill myself in the first place? Or maybe it's the method -- choose one that you can't stop. Like a gun to the head. I don't think I could do that. Guns scare me.
