

## WET BEAVER

- LADY 1 Well this looks to be quite the predicament.
- LADY 2 It's not going well is it?
- LADY 1 No.
- LADY 2 You must be terribly uncomfortable with that moose head up there.
- LADY 1 It's not all that bad. It's better than a beaver.
- LADY 2 Oo, yes. I wouldn't want to have a beaver up there. The beaver should be mounted much lower. Directly under the head usually.
- LADY 1 The only problem is the roof leaks just above the head so it trickles down and I end up with a wet beaver.
- LADY 2 What's wrong with having a wet beaver?
- LADY 1 Nothing really. But the beaver is mounted just above where the cat likes to sleep.
- LADY 2 So your wet beaver makes your pussy moist?
- LADY 1 Exactly.
- LADY 2 Well, what's a pussy doing under your beaver? That doesn't seem right.
- LADY 1 Strange enough she prefers being underneath.
